A1

The image shows an Excel spreadsheet with a grid of columns (A-W) and rows (1-28). The top-left corner, cell A1, is highlighted with a red box. A red arrow points from this box to a text box on the right side of the spreadsheet. The text box contains the following text:

You first need to decide if you want to add color to alternating columns to the entire worksheet or just a specific area. If you want to add it to the entire worksheet, then click in the top left corner.

- Icon Sets
- New Rule...**
- Clear Rules
- Manage Rules...

In the dropdown menu, Click on New Rule.

New Formatting Rule

Select a Rule Type:

- Format all cells based on their values
- Format only cells that contain
- Format only top or bottom ranked values
- Format only values that are above or below average
- Format only unique or duplicate values
- Use a formula to determine which cells to format**

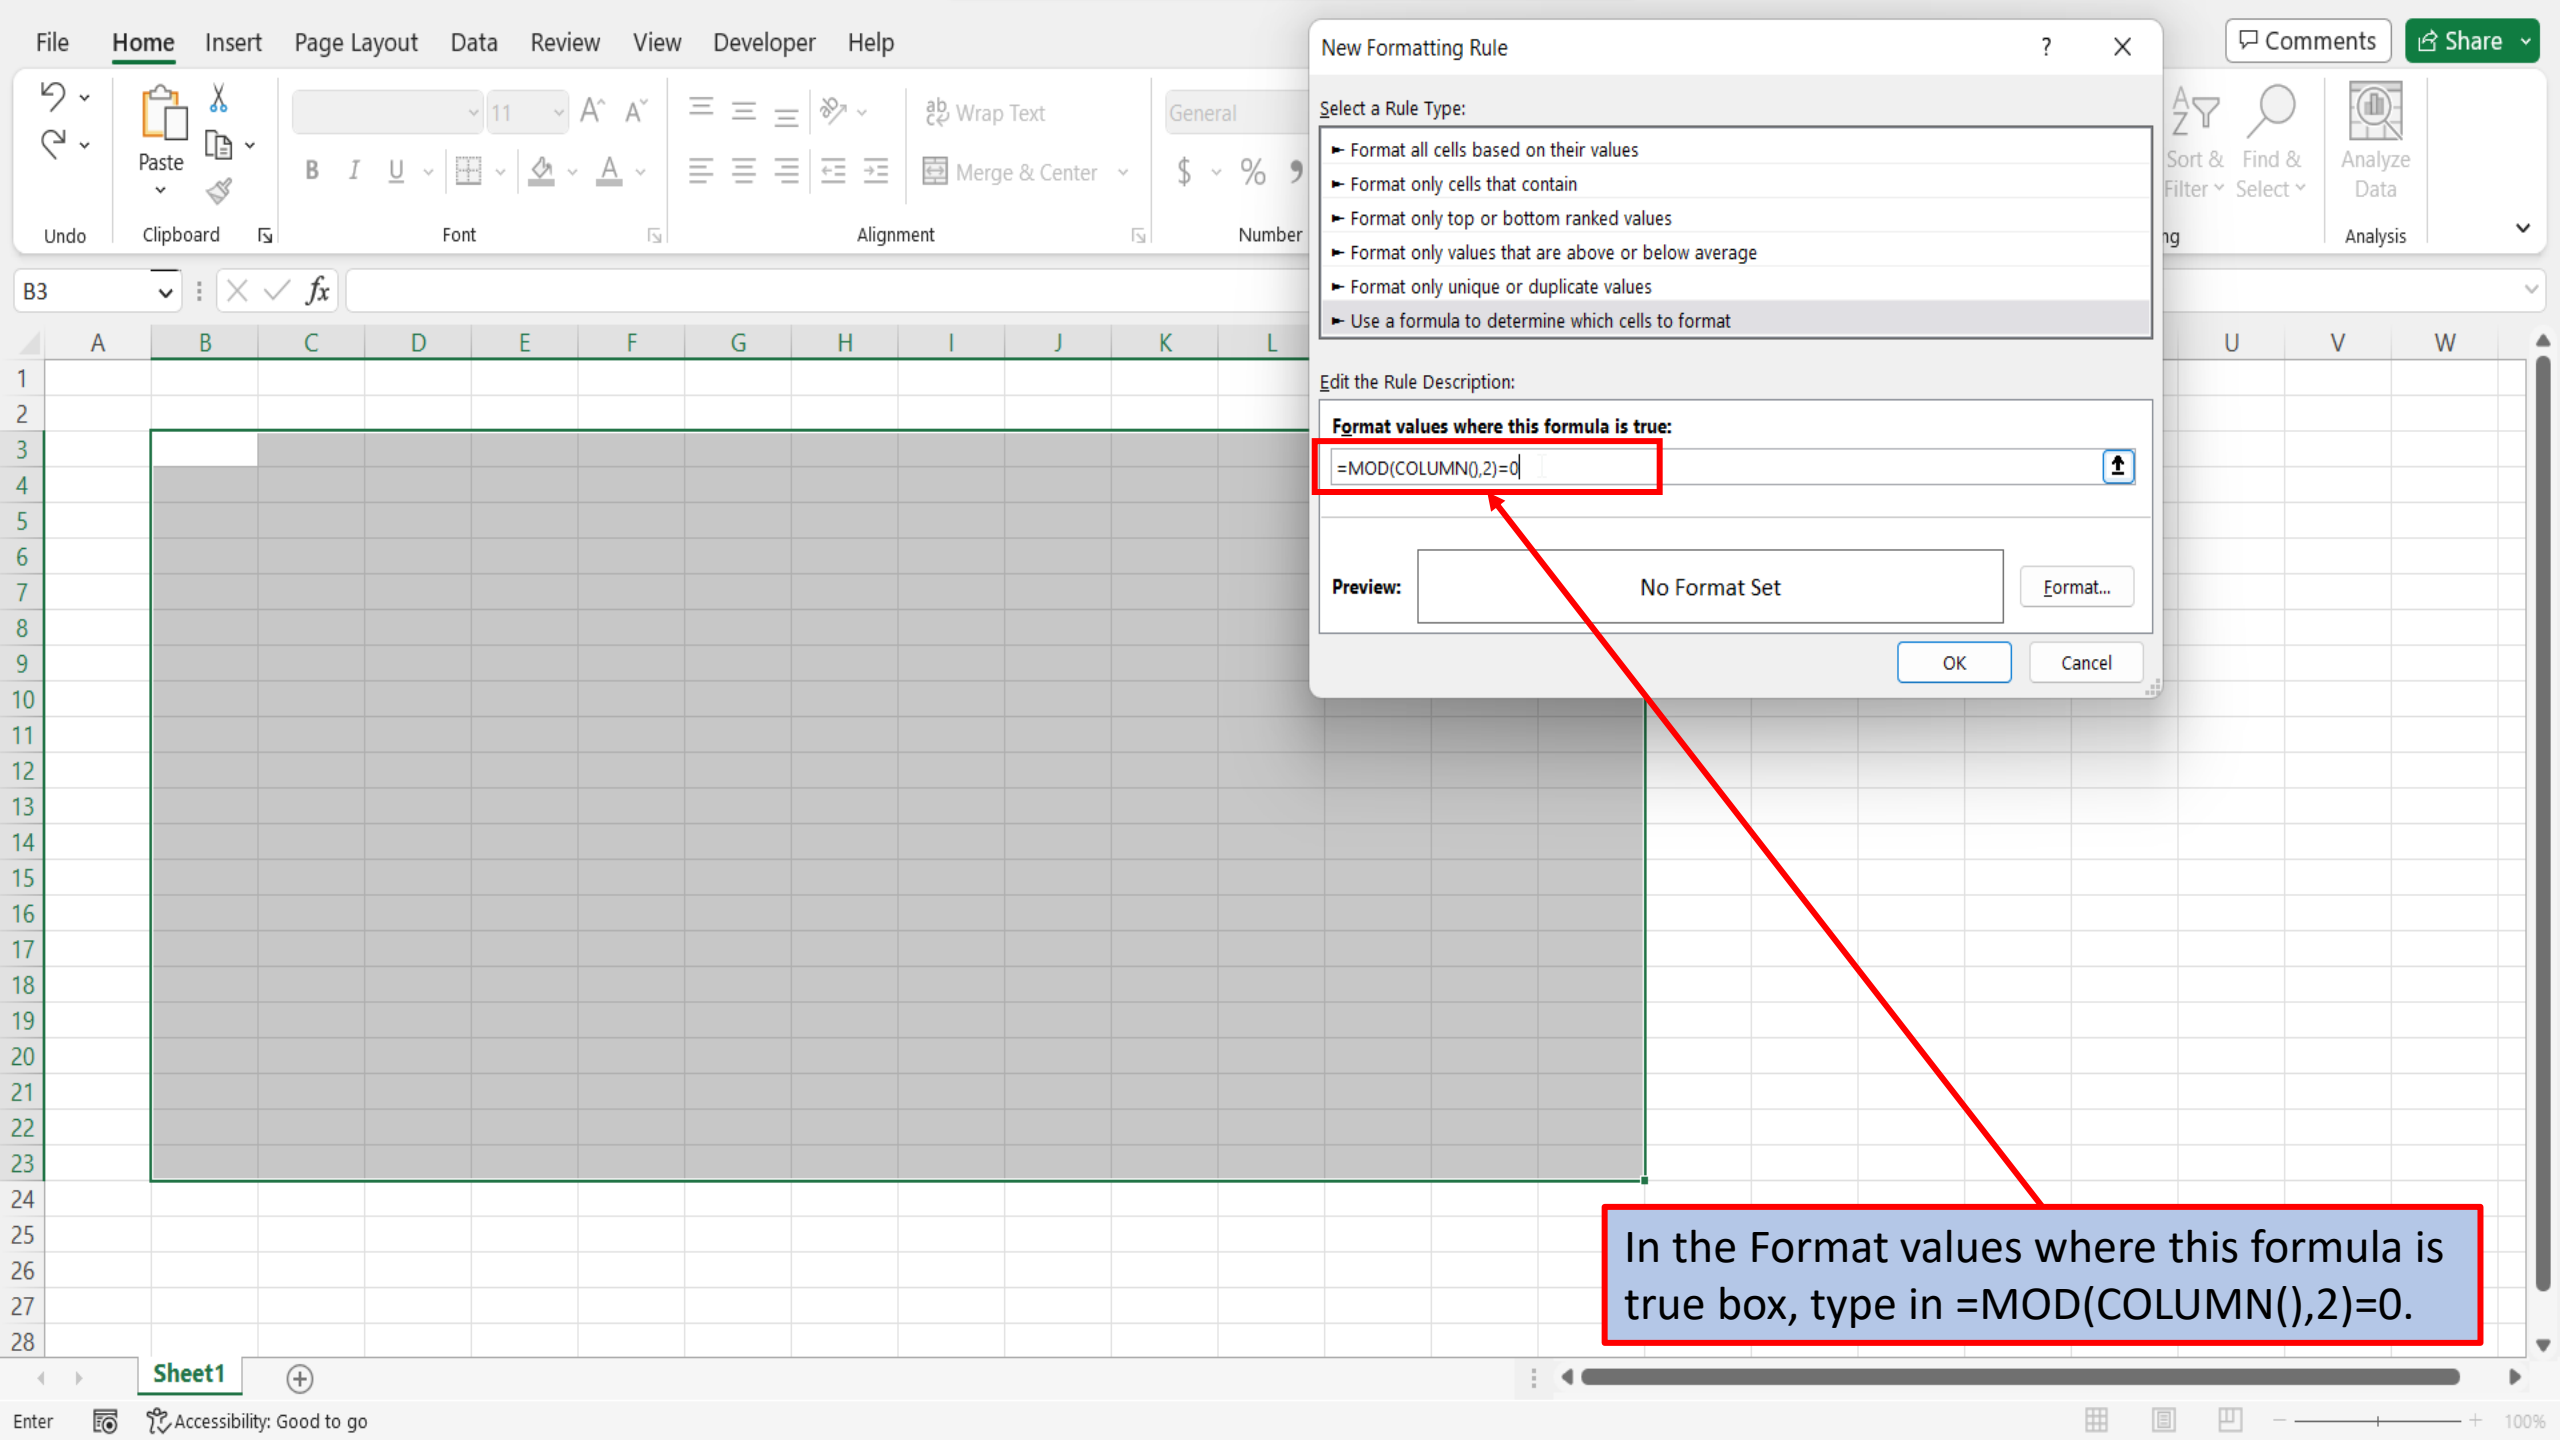

Edit the Rule Description:

Format values where this formula is true:

Preview: No Format Set

OK Cancel

In the window that opens, choose "use a formula to determine which cells to format".

New Formatting Rule

Select a Rule Type:

- Format all cells based on their values
- Format only cells that contain
- Format only top or bottom ranked values
- Format only values that are above or below average
- Format only unique or duplicate values
- Use a formula to determine which cells to format

Edit the Rule Description:

Format values where this formula is true:

`=MOD(COLUMN(),2)=0`

Preview: No Format Set

OK Cancel

In the Format values where this formula is true box, type in =MOD(COLUMN(),2)=0.

Clipboard: Undo, Paste, Copy, Cut

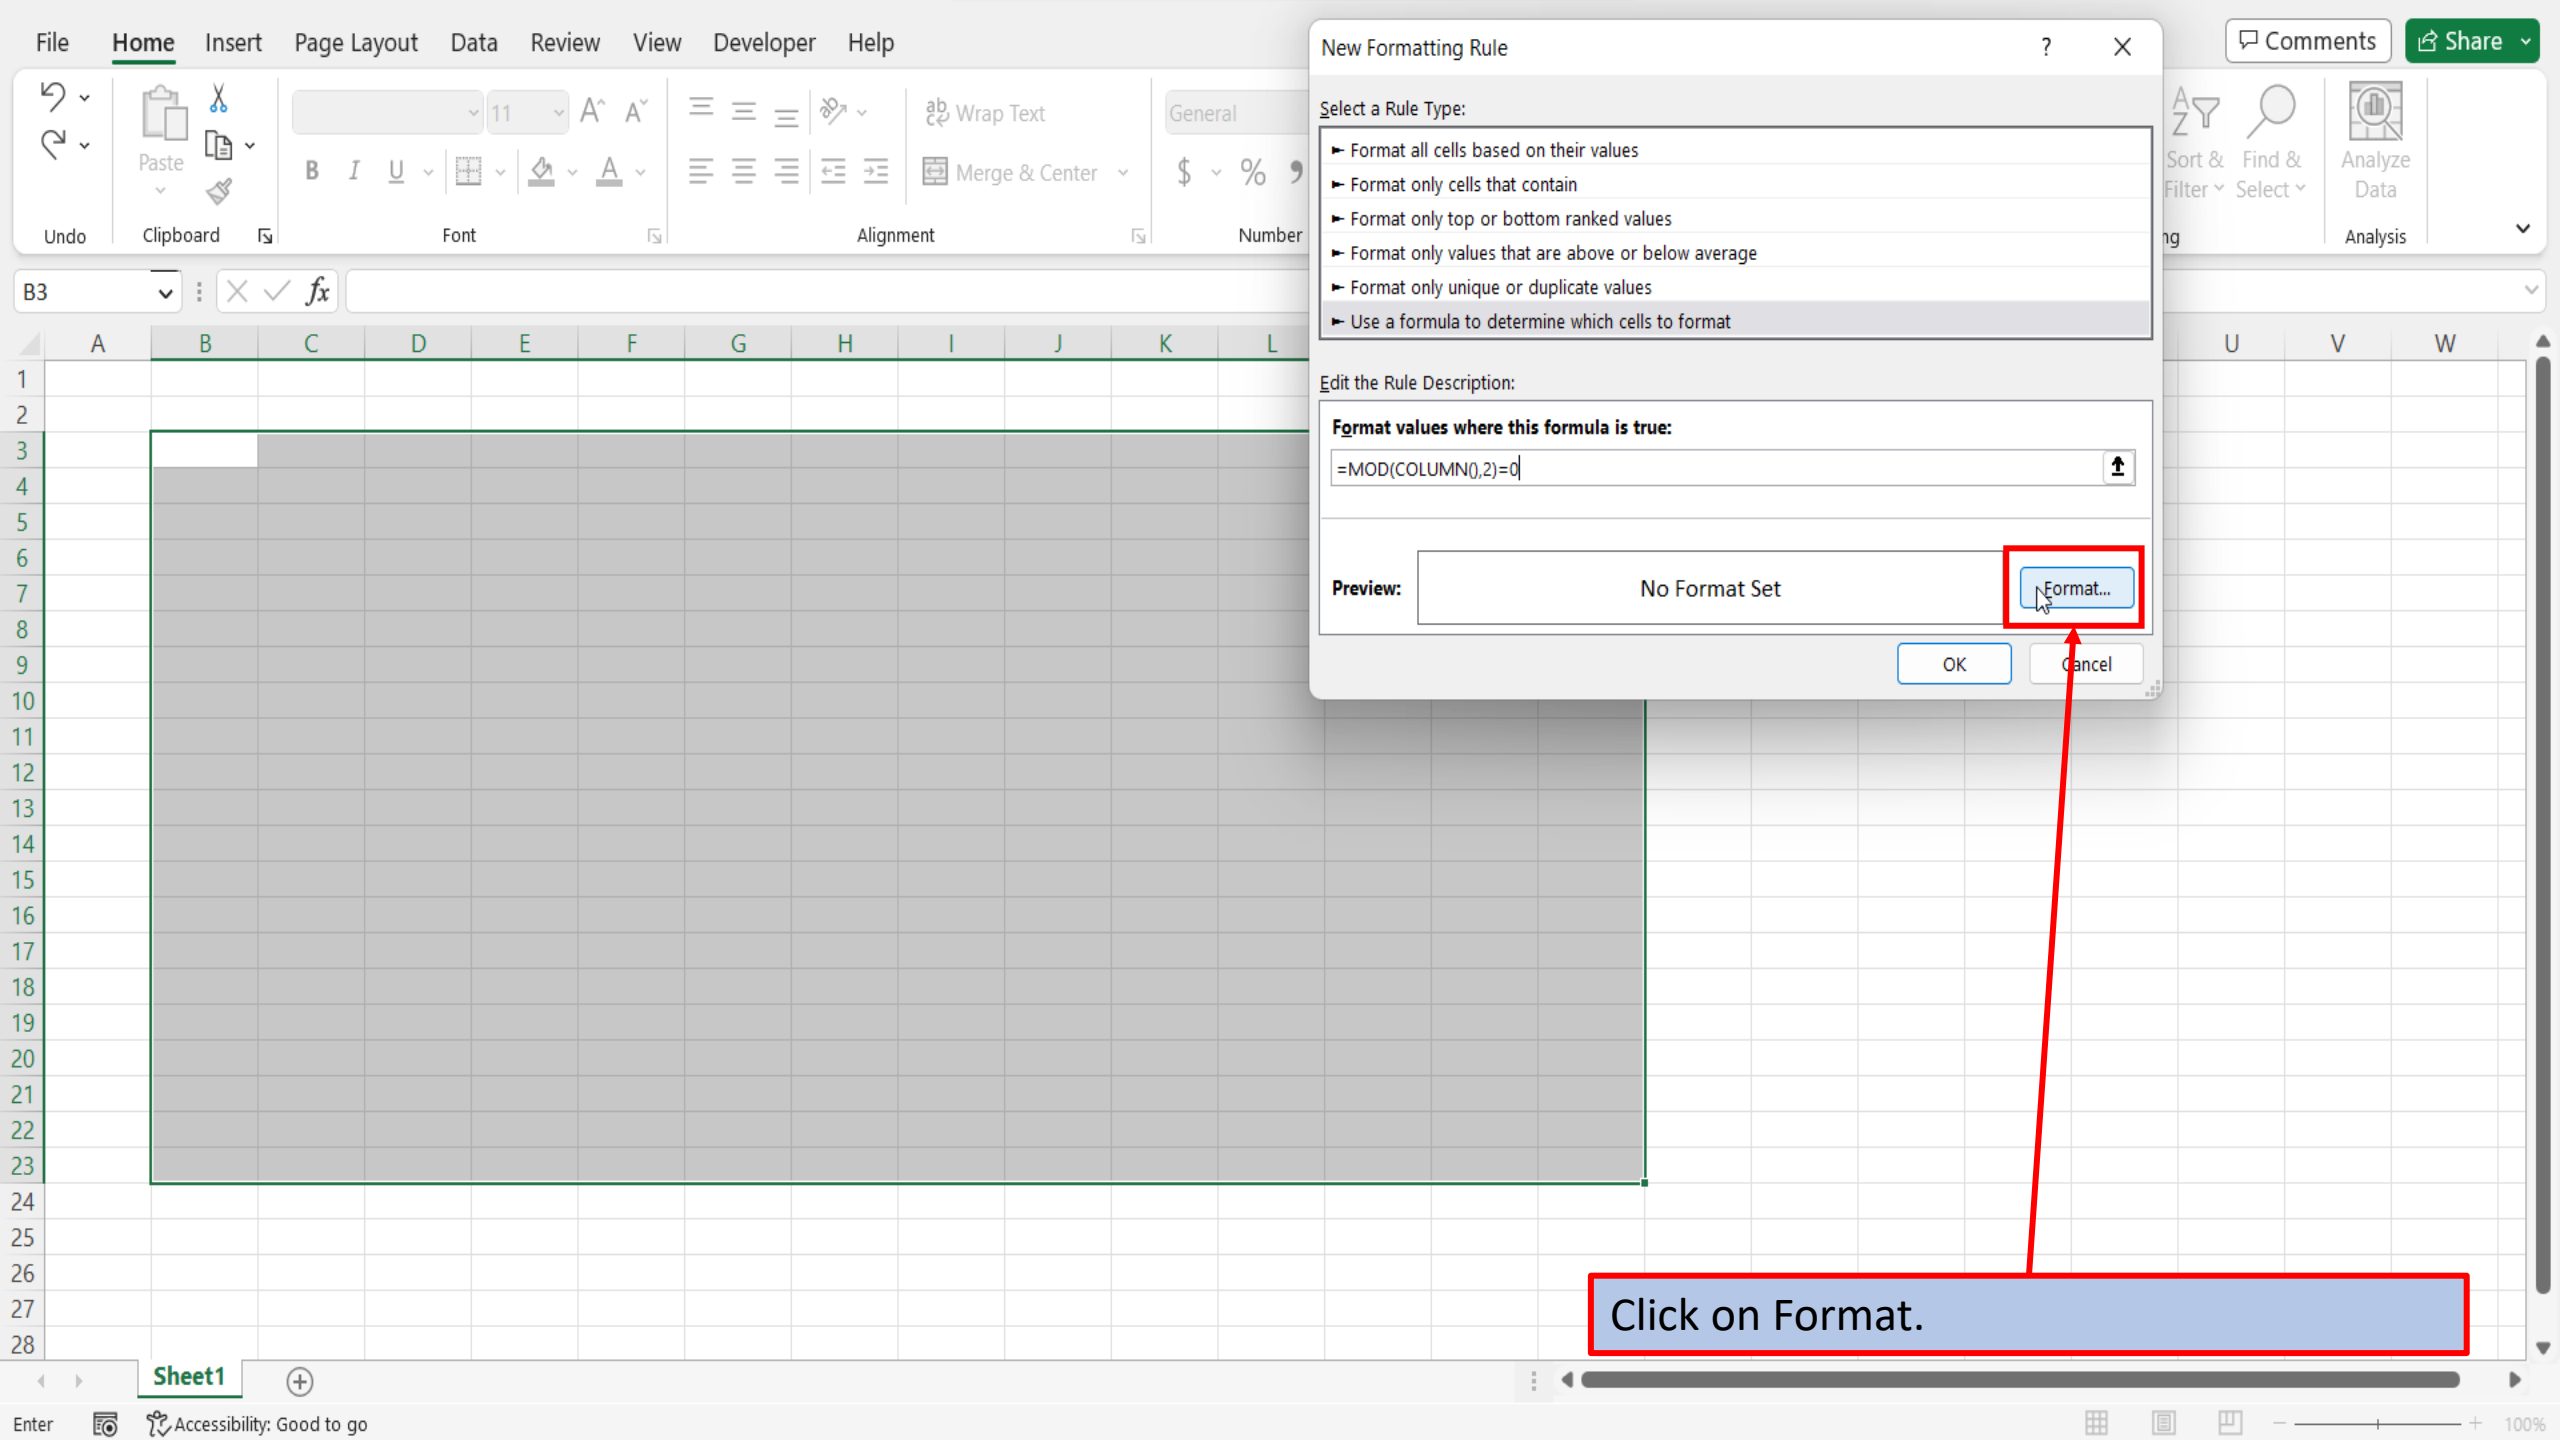

Font: Font face (Calibri), Size (11), Bold, Italic, Underline, Color, Background Color, Text Color

Alignment: Wrap Text, Merge & Center, Text Alignment (Left, Center, Right), Orientation (Horizontal, Vertical)

Number: Currency, Percentage, Decimals
