

Task	Progress (%)
Task 1	20
Task 2	55
Task 3	85
Task 4	40
Task 5	75

Want to add traffic light icons to your Excel data to quickly spot trends? In this video, I'll show you exactly how to use conditional formatting traffic lights in Excel — step by step. Let's get started!

	A	B	C	D	E	F	G	H	I	J	K	L	M	N	O	P	Q	R	S	T	U	V	W	X	Y	Z	AA	AB	AC
1	Task	Progress (%)																											
2	Task 1	20																											
3	Task 2	55																											
4	Task 3	85																											
5	Task 4	40																											
6	Task 5	75																											

Here, we have some data. In column A, we have 5 different tasks. In column B, we have the completion percentage of each task. We want to add traffic lights to each completion percentage to give us a visual for each task.

	A	B	C	D	E	F	G	H	I	J	K	L	M	N	O	P	Q	R	S	T	U	V	W	X	Y	Z	AA	AB	AC
1	Task	Progress (%)																											
2	Task 1	20																											
3	Task 2	55																											
4	Task 3	85																											
5	Task 4	40																											
6	Task 5	75																											

For this example, we'll use whole numbers instead of percentages. It's a simpler way to apply traffic lights, especially if you're working with progress values or other data that doesn't need to be shown as a percentage.

	A	B	C	D	E	F	G	H	I	J	K	L	M	N	O	P	Q	R	S	T	U	V	W	X	Y	Z	AA	AB	AC
1	Task	Progress (%)																											
2	Task 1	20																											
3	Task 2	55																											
4	Task 3	85																											
5	Task 4	40																											
6	Task 5	75																											

First, highlight the cells containing the numbers that you want to add the traffic lights to.

File **Home** Insert Draw Page Layout Formulas Data Review View Developer Help Acrobat

Clipboard: Paste, Cut, Copy, Format Painter

Font: Calibri, 11, A<sup>+</sup>, A<sup>-</sup>, B, I, U, Color, Background Color

Alignment: Wrap Text, Merge & Center

Number: General, \$, %, , .00, .00

Conditional Formatting: [Icon]

Format as Table

Styles: Normal, Bad, Good, Neutral

Cells: Insert, Delete, Format

Editing: AutoSum, Fill, Clear, Sort & Filter, Find & Select

Add-ins: Add-ins, Analyze Data, Create a PDF, Adobe Acrobat

B2

Task	Progress (%)
Task 1	20
Task 2	55
Task 3	85
Task 4	40
Task 5	75

From your home tab, click on Conditional Formatting.

	A	B	C	D	E	F	G	H	I	J	K	L	M	Q	R	S	T	U	V	W	X	Y	Z	AA	AB	AC
1	Task	Progress (%)																								
2	Task 1		20																							
3	Task 2		55																							
4	Task 3		85																							
5	Task 4		40																							
6	Task 5		75

- Color Scales >
- Icon Sets >
- New Rule...
- Clear Rules >
- Manage Rules...**

Drop down and click on Manage Rules.

B2

A	B	C	D	E	F	G	H	I	J	K	L	M	N	O	P	Q	R	S	T	U	V	W	X	Y	Z	AA	AB	AC
---	---	---	---	---	---	---	---	---	---	---	---	---	---	---	---	---	---	---	---	---	---	---	---	---	---	----	----	----

1	Task	Progress (%)																										
2	Task 1	 20																										
3	Task 2	 55																										
4	Task 3	 85																										
5	Task 4	 40																										
6	Task 5	 75																										

Conditional Formatting Rules Manager

Show formatting rules for: Current Selection

New Rule... Edit Rule... Delete Rule Duplicate Rule

Rule (applied in order shown)	Format	Applies to	Stop If True
Icon Set		=B\$2:\$B\$6	<input type="checkbox"/>

OK Close Apply

Click on your rule to highlight it.

	A	B	C	D	E	F	G	H	I	J	K	L	M	N	O	P	Q	R	S	T	U	V	W	X	Y	Z	AA	AB	AC
1	Task	Progress (%)																											
2	Task 1	 20																											
3	Task 2	 55																											
4	Task 3	 85																											
5	Task 4	 40																											
6	Task 5	 75																											

Conditional Formatting Rules Manager

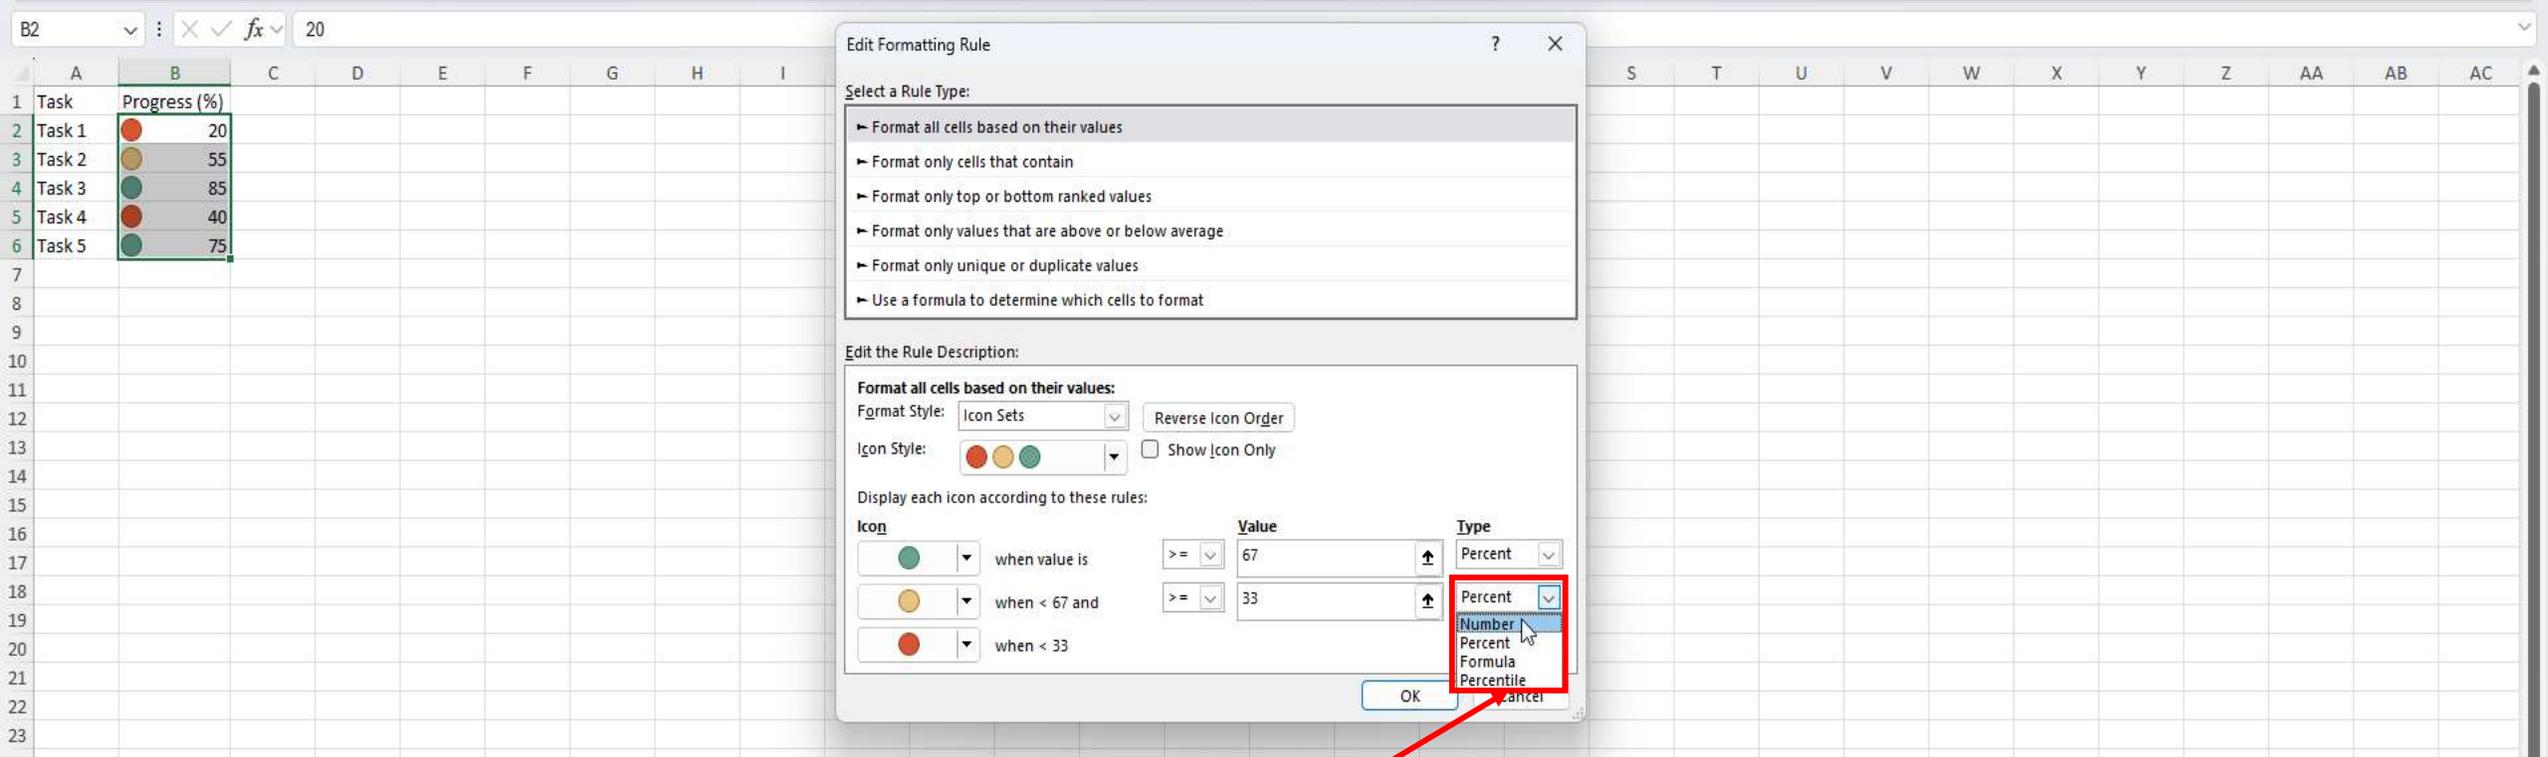

Show formatting rules for: Current Selection

New Rule... Edit Rule... Delete Rule Duplicate Rule

Rule (applied in order shown)	Format	Applies to	Stop If True
Icon Set		=B\$2:\$B\$6	<input type="checkbox"/>

OK Close Apply

And Choose Edit Rule.

Next, change 'Type' from Percent to Number. This is important because Percent bases the icons on relative values, meaning Excel will compare all your data and apply icons based on percentages of the range. But by using Number, you can set fixed thresholds, like 80 for green, 50 for yellow, and anything below 50 for red. This gives you more precise and consistent control over your traffic lights.

	A	B	C	D	E	F	G	H	I	S	T	U	V	W	X	Y	Z	AA	AB	AC	
1	Task	Progress (%)																			
2	Task 1	 20																			
3	Task 2	 55																			
4	Task 3	 85																			
5	Task 4	 40																			
6	Task 5	 75																			

**Edit Formatting Rule**

Select a Rule Type:

- Format all cells based on their values
- Format only cells that contain
- Format only top or bottom ranked values
- Format only values that are above or below average
- Format only unique or duplicate values
- Use a formula to determine which cells to format

Edit the Rule Description:

**Format all cells based on their values:**

Format Style: Icon Sets  Reverse Icon Order

Icon Style:   Show Icon Only

Display each icon according to these rules:

Icon	Value	Type
	>= 80	Percent
	>= 50	Percent
	when < 33	

OK Cancel

Next, enter the following values. 80 for green. This will change any value 80 and above to green. 50 for yellow. This will change any value between 50 and 80 to yellow. This will automatically set anything below 50 to red.

Task	Progress (%)
Task 1	20
Task 2	55
Task 3	85
Task 4	40
Task 5	75

**Edit Formatting Rule**

Select a Rule Type:

- Format all cells based on their values
- Format only cells that contain
- Format only top or bottom ranked values
- Format only values that are above or below average
- Format only unique or duplicate values
- Use a formula to determine which cells to format

Edit the Rule Description:

Format all cells based on their values:

Format Style: Icon Sets  Reverse Icon Order

Icon Style:   Show Icon Only

Display each icon according to these rules:

Icon	Value	Type
	when value is >= 80	Percent
	when < 80 and >= 50	Percent
	when < 50	

OK Cancel

Click OK.

	A	B	C	D	E	F	G	H	I	J	K	L	M	N	O	P	Q	R	S	T	U	V	W	X	Y	Z	AA	AB	AC
1	Task	Progress (%)																											
2	Task 1	 20																											
3	Task 2	 55																											
4	Task 3	 85																											
5	Task 4	 40																											
6	Task 5	 75																											

Conditional Formatting Rules Manager
